

VALUATIONS WILL BE SENT OUT SOON

Work of Making Up Assessment Rolls is Being Pushed Rapidly.

GENERAL INCREASE SURE
FIVE TO FIFTEEN PER CENT ADDITION TO APPRAISEMENT.

All the assessment work having been completed by the deputies in the county assessor's office, so far as the collecting of information is concerned, the work of making up the assessment rolls is now being pushed by an enlarged office force in the assessor's office, and within a few days the first books will be turned over to the county treasurer for the purpose of sending out valuation notices. These must all be mailed by the treasurer by the third Monday in May to enable protestants to appear before the county board of equalization—the board of county commissioners—for adjustments of some slight errors that might have been made. The board will meet the first Monday in June, and the sessions will last most of the month.

It is now certain that there will be a general increase in the assessment of the county for the year 1910. What this will be is not known, but it is estimated that the increase will range from about 5 to 15 per cent.

The most noticeable increase from which taxes will be received will be from the improvements in Salt Lake. The county assessor will make some increases in the farm lands of the county, and the many new plots which are being thrown on the market this year in land just annexed to Salt Lake will also form one of the large items in the list.

From figures gained yesterday, it is believed that Salt Lake will receive about \$50,000 more this year than a year ago, and thus will have something more in the treasury. Many of the improvements hoped for this year were held up for the reason that the city did not have the money, and Mayor John S. Bransford refused to allow the city to go as far into debt as in former years. But with the additional \$50,000 from taxes this year it is felt that something of the proposed improvements can be taken up.

Increase of Millions.

It is believed that the property valuation of the county will be increased about \$4,000,000 over those of last year, bringing the assessed valuation to about \$73,000,000. The assessed valuation in the city last year was \$62,233,765, as compared to \$49,001,233 for the year previous, outside of the city they were \$14,568,057 in 1909, against \$16,572,472 for 1908.

Gains 30 Pounds In 30 Days

Remarkable Result of the New Flesh-Building Protons, in Many Cases of Run-Down Men and Women.

Prove It Yourself By Sending Coupon Below for a Free 50c Package.

"By George, I never saw anything like the effects of that new treatment, Protons, for the building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well known gentleman yesterday in speaking of the revolution that had taken place in his condition. I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer and almost everything else you could think of,

Any man or woman who is thin can recover normal weight by the remarkable new treatment, Protons.

but without result. I had been thin for years, and began to think it was natural for me to be that way. Finally I read about the remarkable success brought about by the use of Protons, so I decided to try it myself. Well, when I look at myself in the mirror now I think it is somebody else. I have put on just 30 pounds during the last month and never felt stronger or more 'nervy' in my life."

FREE PROTONS COUPON.

It will cost you nothing to prove the remarkable effects of this treatment. The Protons Company will send to anyone a free 50c package of Protons if they will fill out this coupon and enclose 10c in stamps or silver to help cover postage and packing, and as evidence of good faith, with full instructions to prove that it does the work. They will also send full instructions and their book on "Why You Are Thin," free of charge, giving facts which will probably astonish you.

If you want to put on more flesh fill out the following coupon today. Free 50c packages can only be had by writing direct to Detroit.

NON-UNION FIRM LOSES KEARNS BLOCK WORK

Contract for Erecting Steel Taken Away From Jones Construction Company.

Contract for erecting the steel on the new Kearns building in Main street was yesterday taken from the Jones Construction company of St. Francisco, which has been employing a union labor, and transferred to the James L. Burke Co. of Salt Lake, union contractors. This is in line with recent announcements in The Herald-Republican that such pressure had been brought to bear by the union labor organizations that negotiations were under way whereby the contract for the steel work would be transferred to a union contractor.

The Burke company yesterday morning took up the work where the Jones people left off Thursday, there being a cessation of operation during Friday, and the union men are now employed on the job. The transfer was made by S. W. Harding, president of the Modern Steel Structural company of Waukegan, Wis., general contractors of the new Kearns building. The reason given for the transfer is that the work being done by the Jones company was not satisfactory.

Fourteen union steel workers and a union engineer were at work yesterday, and when non-union laborers appeared for work they were informed of the transfer of the sub-contract.

1908, and the total valuation was \$68,806,562 last year, against \$65,373,705 for 1907.

The chief danger is against increasing the valuations too much. It is clearly shown that owing to the great amount of improvements made in Salt Lake last year that the valuations must necessarily be greatly increased this year, but the old danger of running above the constitutional limit is causing some fears.

The total assessed valuation of the state is nearing the \$200,000,000 mark at a startling rate of speed owing to the continued healthy growth in all sections, and when this comes, the constitution says the tax rate shall fall to five mills for state purposes, instead of the eight mills now collected.

This matter is causing more discussion than ever before among the county and state officials, and the state board of equalization, and men interested in tax matters. It is declared that a board of tax commissioners should be established, which will do away with the state board of equalization, and place the assessed valuation of the property nearer its real value—which will be somewhere near \$300,000,000. It is declared that with this equitable assessing, the taxes can be reduced to three or four mills for state purposes, and still the state will have far more than is being received at the present time.

There is still hope that State Auditor Jesse D. Jewkes will take the matter up and take the first step in calling a convention of county assessors, treasurers and auditors from all over the state to discuss this and other matters. Those interested in the matter have waited for months for the calling of the convention, since Governor William Spry announced his hearty approval, and the convention call is awaited daily.

MEDAL FOR BIG HORSES

Gold and Silver Emblems for Percherons to be Awarded at State Fair.

A fine list of special premiums will be offered for Percheron horses at the coming Utah state fair by the Percheron Registry company of Columbus, O., according to information received yesterday by Horace Ensign, secretary of the State Fair association. Gold and silver medals are being offered by the Percheron company, the gold medals as first awards, and the silver as second prizes, and every opportunity for owners of this class of horses will be afforded to enter into the contests and compete for the premiums. The classes in which the medals will be awarded are as follows:

Special A—Stallion, 4 years old and over.

Special B—Stallion 3 years old and under 4.

Special C—Stallion, 2 years old and under 3.

Special D—Stallion, 1 year old and under 2.

Special E—Mare, 4 years old and over.

Special F—Mare, 3 years old and under 4.

Special G—Mare, 2 years old and under 3.

Special H—Mare, 1 year old and under 2.

Special I—Mare and foal, each to count 50 per cent.

Special J—Collection of five stallions.

Special K—Collection of three mares.

Special L—Stud consisting of one stallion and four mares.

Special M—Stud consisting of one stallion and three mares, all bred by exhibitor.

Special N—Stallion, any age, bred by exhibitor.

Special O—Mare, any age, bred by exhibitor.

Special P—Champion stallion.

Special Q—Champion mare.

Besides these premiums the usual list will be offered by the fair association.

JORDAN BRIDGE IS DONE

Work Completed on Steel Structures at Riverton.

Work has just been completed on the new steel bridge across the Jordan river by Riverton, by the Midland Bridge company, and presents one of the models of the state in steel bridge construction. The bridge is twenty-four feet wide, with a span of seventy feet, set upon solid abutments of stone and concrete on either side of the river. The bridge cost the county about \$5,500. Wagons and other vehicles are now using the bridge, and all remaining to be done is putting some finishing touches on the grading near the bridge on both east and west banks. The county commissioners inspected the structure yesterday, and were highly pleased with the appearance of the bridge, both as to neatness and durability.

Two Tennessee draftsmen have patented a magnetic "T-square," which is held against the iron-bound edge of a drawing board by an electro-magnet in its head. A switch cuts off the current and allows it to be moved.

TO REDISTRICT CITY

County Commissioners Will Consider Many Measures at Meeting Tomorrow.

A complete redistricting of the election districts of Salt Lake city and county, changes in the boundaries of the Granite school district and a change in the limits for the justices of the peace will be taken up Monday morning by the county commissioners in preparation for the election next fall.

Redistricting is made necessary since more than a square mile of territory has been added to the city in the annexation of Sugar House, formerly a county district. There were also some small strips of ground south of Tenth South street which have been taken into the city, and thus taking more voters from the county. The redistricting will, it is understood, be materially changed, to cut down some of the territory in the First precinct and add more to the fifth.

The First comprises a larger area than any other district in the city, and with the addition of Sugar House this will be greatly enlarged unless the district is cut down somewhat on the north. Two of the members of the Granite school board are not now residents of the district. One is D. W. Moffatt of Murray, and the other A. B. Sorenson of Sugar House. It is proposed to change the district boundaries.

The same trouble has been experienced with the justices of the peace, and these districts will have to be changed by the county commissioners.

REAL ESTATE TRANSFERS.

Salt Lake Security & Trust Co. to Kimball & Richards Co., lots 32 and 33, Hollywood, E. tracts.

ANN ARBORITES MEET

Graduates of University of Michigan Will Organize Association Tomorrow.

Graduates of the University of Michigan who are living in Salt Lake will meet at the Commercial club next Monday evening for the purpose of organizing an alumni association.

There are more Michigan alumni in Salt Lake than from any other university, and it is believed that the organization will in a short time have several hundred members.

The meeting Monday night will have a two-fold purpose; first, for organizing the Michigan men, and also to arrange for the entertainment of a number of the faculty of the University of Michigan who will be in Salt Lake April 14 on their way to the Pacific coast.

The party will be composed of Dr. Victor Vaughn, dean of the medical department; M. E. Cooley, dean of the English department; John Reed, dean of the department of literature; Dean Hutchens of the law school, and Mr. Shaw, secretary of the faculty.

Arrangements will likely be made for an elaborate banquet in honor of the visitors.
